

System Architecture

The project follows a modular FastAPI architecture:

Frontend

FastAPI Backend

Gemini AI Layer

SQLite Database

Components

Frontend

- `index.html`
- `result.html`
- `all_users.html`

Backend

- FastAPI
- Route handling
- User input processing

AI Layer

- Gemini 1.5 Pro
- Gemini Flash

Database

- SQLite
- SQLAlchemy ORM

Project Structure

/app

/templates

/static/images

The PDF specifies **/app** for Python files, **/templates** for HTML templates, and **/static/images** for assets.

Gemini Model Design

Model	Purpose
Gemini 1.5 Pro	Workout generation
Gemini 1.5 Pro	Feedback-based plan updates
Gemini Flash	Nutrition/recovery tips
